

# IMEAS: participation to Meet & Match Forum

Milano, Italy, 21<sup>th</sup> and 22<sup>nd</sup> March 2017

The two-days Meet & Match Forum was structured into plenary keynote sections and working group meetings.

IMEAS established interesting contacts with some projects and institutions, in particular with CESBA Alps and THE4BEES, and with the experts working on multi level governance, building capacity and EU macro-regional strategies.

The event was an opportunity to share the vision and the approaches in addressing the different common challenges in the Alpine Space: an inspiring think-tanker for all the participants!

During the working group meetings under the thematic session Transnationally integrated low carbon policy, Roberta Roberto (ENEA) and Patrick Biard (RAEE) folded a mountain taking into account the words and sentences emerged from IMEAS consortium: trust, connections, multi-level and cross-sector vision and actions on energy planning.

The presentations and pictures of the event are available on the AS ([link](#)), along with the outcomes of the “My mountain” and “Our mountain range” sessions.

Please find below a few sentences and keywords from IMEAS partners’ sharing and from the event, food for thoughts!
